Step 3: Review your feedback

- After clicking on your submission, you will see the assignment directions and your submitted assignment. Continue scrolling to review all completed assessments left by your peers.
- It is not always easy to read feedback about your work, but try to approach the assessments with an open mind. Remember that feedback is intended to be constructive, and ask yourself: how can I use this feedback to improve my work?
- If you find errors or areas of concern, please feel free to message your instructor. Your instructor always has the final say for assignment grades.
